Professional Summary

Senior Full Stack Developer with over 3 years of expertise in building high-performance cross-platform and web applications. Proficient in React Native, Next.js, Node.js, Three.js, and Machine Learning. Adept at delivering robust, scalable, and user-friendly solutions that meet client requirements with a focus on innovative design and seamless performance.

Core Expertise

Mobile App Development: Expert in React Native for creating seamless iOS and Android applications.

Web Development: Proficient in Next.js for developing fast, SEO-friendly web applications.

Backend Development: Skilled in Node.js for building efficient and scalable backend solutions.

3D Visualization: Specialized in Three.js for immersive 3D web experiences.

AI Integration: Experienced in implementing machine learning for intelligent data analysis and user interaction.

Special Skills

End-to-end mobile and web application development.

Optimizing app and website performance for rapid responsiveness.

Advanced state management (Redux, MobX, Context API).

Integration of third-party APIs and custom solutions.

Creating pixel-perfect UI/UX designs based on Figma and Sketch.

Advanced user authentication, payment gateway integration, and security measures.

Professional Experience

-ELEKS (Remote, Ukraine) Senior Full Stack Developer

Delivered high-quality web applications through robust full-stack development practices.

Mentored junior team members, fostering a collaborative and efficient development environment.

Enhanced cloud infrastructure by optimizing APIs hosted on Azure Kubernetes Services (AKS).

Resolved performance bottlenecks, ensuring smooth application performance.

-SoftServe (Remote, Ukraine) Principal Software Engineer

Spearheaded the design and development of advanced features for enterprise-level applications.

Conducted unit testing with Jest and integrated end-to-end testing with Cypress, achieving 80%+ code coverage.

Implemented Git-based CI/CD pipelines, streamlining the testing and deployment processes.

Enhanced UI/UX design based on Figma mockups for client-facing portals.

Developed and maintained 200+ reusable components with Storybook, improving cross-team efficiency.

Education

State University 'Lviv Polytechnics' (Ukraine)

Bachelor of Computer Science

Achievements

Reduced app load time by 30% through optimization strategies.

Delivered customized solutions across industries, including e-commerce, healthcare, finance, AI/ML, and social media.

Why Work with Me

I believe every idea deserves technical excellence and a thoughtful approach. I focus on developing scalable solutions tailored to unique business goals. Whether building a product for a startup, scaling an existing app, or experimenting with innovative technologies, I am dedicated to turning visions into reality with creativity, technical expertise, and professionalism.
